

Connectivity Services

Transforming Businesses Through Technology

Internet connectivity is essential to the operation of businesses. Secure, reliable, and carrier-diverse Internet keeps your business running efficiently.

MNJ DISCOVERY CALL

Our discovery process provides custom connectivity solutions allowing you to select the best service to meet your business needs, regardless of geography. MNJ engineers and architects participate in a preliminary call with you to discuss your business's challenges, identify key solutions, and create a strategy best suited for your organization.

MNJ CONNECTIVITY PRACTICE

Our expert teams can provide:

Broadband

Transmit Internet data through a shared connection without guaranteed bandwidth.

MPLS & Private Line

Provides secure and efficient networking between business locations.

Direct Internet Access (DIA)

Transmit Internet data through a dedicated connection with guaranteed bandwidth.

Point-to-Point & Wavelength

Dedicated line between two locations via a closed network using copper or fiber (Point-to-Point) or via DWDM (Wavelength).

Wireless

Backup or primary connection through LTE, wireless broadband (set pricing), and fixed wireless.

Dark Fiber

Unused fiber can be leased where the lessee is responsible for fiber maintenance and operations.

IDENTIFY BANDWIDTH NEEDS

INCREASE INTERNET ACCELERATION

REDUCE CARRIER LOCK-INS

DEDICATED PROJECT MANAGER

FOCUS ON CORE BUSINESS

AMPLIFY INTERNET SPEED

Benefits of MNJ's Connectivity Services

✓ Right-Size Bandwidth

Your business no longer needs to suffer from slow Internet. MNJ will design a solution that maximizes available services and delivers the needed bandwidth.

✓ Centralized Support

Have a single point of contact for placing orders, obtaining technical support, and making billing inquiries. Also, MNJ will provide you a consolidated bill.

✓ Vendor Management

Rest easy knowing the status of your connections by accessing MNJ's customer portal or calling the support team 24x7x365.

✓ Network Operations Center

MNJ's NOC provides organizations with complete visibility over their network, detects anomalies, and enables the MNJ team to prevent or resolve problems and issues proactively.

✓ Eliminate Vendor Lock-Ins

MNJ's vast carrier footprint allows you to select the best-of-breed providers across all your locations with no long-term commitments to a single provider. MNJ will also work to find the best solutions to eliminate termination fees from providers with their partnership expertise.

✓ Network Reliability

MNJ will design, monitor, and maintain your services and deliver higher uptime and superior performance for your communications and application services.

✓ Project Implementation

Project implementation is the foundation of good project management. MNJ's implementation teams create incremental value and complete projects effectively without sacrificing quality — or employee sanity.

A SINGLE CONNECTIVITY SOLUTION

MNJ's connectivity solutions provide the optimal bandwidth to meet your business needs without the hassle of dealing with multiple carriers directly.

About MNJ

MNJ is a leading Digital Transformation and IT Solutions Provider, as well as a Competitive Local Exchange Carrier (CLEC). We'll keep you ahead of the curve with our proven practice areas, focus on customer success, and extensive partner ecosystem.
