

# Managed IT Support Services for Microsoft 365

Between keeping systems running, driving innovation, aligning with business objectives, and keeping the organization secure from cyber threats, there are simply not enough hours in the day. The complexity of Microsoft licensing only adds to your challenges, consuming valuable time and budget.

At MNJ, you have access to Microsoft licensing experts dedicated to unraveling the complexity for you. Our full or partially managed licensing services allow you to regain control and the freedom to focus on big-picture priorities.

## **Gain Clarity and Confidence**

We perform an in-depth discovery to determine all your Microsoft licensing requirements. No more guessing if you have the right licenses or if you're over- or under-licensed.

Our Microsoft licensing professionals choose and implement the best licensing solution for your needs while ensuring you remain 100% compliant.

## **Reduce Costs and Increase Efficiency**

We help you consolidate fragmented subscriptions while leveraging the best available plans and discounts to prevent overspending.

We track adds, moves, and changes, handle renewals, and report on utilization so your internal teams don't have to.

## Common challenges we hear:

“My licensing is a MESS. I don't know if I am overprovisioned or making the most of the feature sets of the licensing I do have.”

“With all the recent changes to Microsoft, I don't understand if I should be on E3, E5, A3, or something else. It's such a headache.”

“When I reach out to my VAR about understanding my Microsoft Licensing, they ask me how many licenses they want us to have quoted. I don't want a quote – I want help and expertise.”
