

Does Your Network Meet Your Needs?

Transforming Businesses Through Technology

MNJ Technologies can provide a free* assessment we will use to ensure fast, dependable, and secure connectivity (circuits) across all your company's locations.

Our assessment will provide answers to questions like:

- Do you have the necessary bandwidth and technology at each location to meet operational and expansion needs?
- Are you paying too much for the connectivity services and performance you're receiving?
- How can you improve security, monitoring, and control across all connected locations?
- What risks or limitations does your current network pose to key business priorities?
- How can you simplify network management to reduce headaches and focus technical staff on more strategic work?

Our connectivity experts will conduct remote evaluations of your entire network and all telecom agreements.

We'll assess infrastructure at each location, compare costs and contracts, evaluate security measures, and analyze connectivity in relation to both current demands and future company objectives.

* Organizations with a minimum of 5 sites are eligible for this free assessment offer.

AMPLIFY INTERNET SPEED

Benefits of MNJ's Connectivity Assessment

From this in-depth assessment, we'll provide a comprehensive report including:

- ✓ A location-by-location connectivity profile with recommended upgrades or changes to match operational requirements.
- ✓ A complete multi-site technology roadmap to enhance network security, visibility, control, and performance over time as needs evolve.
- ✓ A cost-savings analysis to potentially reduce total connectivity expenditures by up to 20% or more in the first year—by optimizing providers, services, and billing at each location.
- ✓ Suggestions for streamlining connectivity management through a single point-of-contact, network monitoring, and billing consolidation.

Take control of your network, reduce costs, and gain insights for more informed infrastructure decisions. Contact us now to schedule your free multi-site connectivity assessment.

A SINGLE CONNECTIVITY SOLUTION

MNJ's connectivity solutions provide the optimal bandwidth to meet your business needs without the hassle of dealing with multiple carriers directly.
