Build & Config Services

Transforming Businesses Through Technology

MNJ TECHNOLOGIES

> Proper hardware and software configuration takes time and slows down deployments. MNJ will prepare your hardware and software and have it arrive at your door, ready to use!

MNJ's highly trained technicians will customize, test, and certify your technology to meet your organization's unique needs and put more time back into your day.

MNJ BUILD & CONFIG PRACTICE

Tailoring your technology to your organization's needs requires custom configuration. This is where MNJ's Build & Config Services can help.

Solutions include:

Hardware Integration

This service includes installation of memory, hard drives, NIC cards, video cards, and a variety of other components.

Software Configuration

Your computers, mobile devices, and servers will come with operating systems and apps preinstalled.

Autopilot Enrollment with Intune Pre-Provisioning

This includes enrollment into your Autopilot tenant, pre-provisioning of updates, application, policies, and settings (including reboots).

Asset Tagging and Reporting

Our team can build custom labels that we print on demand.

Custom Packaging

We can bundle items for WFH solutions, insert personalized letters and instructions, and label packages for easy routing and tracking.

Chromebook OS White Glove Service (WGS) and Zero Touch Enrollment (ZTE)

Our team can update ChromeOS, enroll devices, and validate Wi-Fi network device policies. We can also pre-provision compatible Chrome devices into your Google Admin console.

Buy and Hold Services

Purchase products and have them held in a secure location for three months to a year. MNJ handles configurations, customization, logistics, and shipping requirements to ensure your predefined deployment schedule is met.

Mobility Services

We configure and activate your tablets and phones. Services that include Apple, Samsung, MDM enrollment, app installations, IOS, and Android updates are also available.

Burn-In Services

We run your devices for 12 hours or more to ensure all components are working properly.

- ✓ **REDUCE COSTS**
- ✓ **ENABLE GREATER SCALABILITY**
- ✓ **FOCUS MORE RESOURCES ON YOUR CORE BUSINESS**
- ✓ **INCREASE BUSINESS TRANSFORMATION VELOCITY**
- ✓ **IMPROVE SECURITY**

MNJ TECHNOLOGIES

Benefits of MNJ's
Build & Config Services

✓ Resource Availability

In-house staff are unlikely to have the time necessary for a configuration project, resulting in slower, less efficient deployments. Plus, configuration takes time away from higher-level projects.

✓ Skilled Engineers

It's imperative that the people who manage your configuration be experienced and deeply knowledgeable. If they're not, you can easily fall off schedule, leading to loss of revenue and productivity.

✓ Streamlined Ordering

Order products via our simple self-serve portal. Your account manager will match your orders with custom requests based on your configuration requirements.

✓ Multi-Site Logistics

Organizations with multiple locations must send their configuration teams to each of their sites or ship their devices to secondary locations after configuring them in-house. This is a financial and logistical headache. MNJ will handle these logistics for you from our centralized Build & Config Center.

✓ Quality Control

MNJ utilizes a quality control process to ensure your products are properly configured and imaged. We ensure your product arrives fully configured, tested, and ready to get to work.

CONFIGURED, ASSEMBLED, DELIVERED

MNJ's Build & Config Services provide hardware and software configuration to meet your business needs and save time and money by delivering a solution that is ready to use out of the box.

About MNJ

MNJ is a leading Digital Transformation and IT Solutions Provider. We'll keep you ahead of the curve with our proven practice areas, focus on customer success, and extensive partner ecosystem.
