

# Goodbye Windows 10... Hello Windows 11!

Transforming Businesses  
Through Technology

## Mark your calendars!

On October 14, 2025, Microsoft is ending support for Windows 10. That means no more security updates, patches, or tech support. MNJ has you covered; upgrade to Windows 11 today to keep your systems secure, speedy, and compliant!

## Why is Windows 10 ending?

In today's fast-paced, tech-savvy world, stronger security features are essential. While Windows 10 is the most popular Windows Desktop operating system, Windows 11 offers more up-to-date functionality and better performance features. Also, with whispers of Windows 12 potentially arriving in late 2024 or early 2025, it's no surprise that it's time to bid farewell to Windows 10.

## Can we still use Windows 10 after October 14, 2025?

To keep using Windows 10 securely after the cut-off date, you'll need to purchase Microsoft's Extended Security Updates (ESUs). These updates provide critical security patches for Windows 10 PCs. However, they won't include new features or design changes. Ongoing technical support won't be available either—only assistance with ESU activation or installation.

# Standout Features with Windows 11

## Fresh New Look

Enjoy a sleek, user-friendly design with new features like Snap Layouts and Widgets.

## Boost Your Productivity

Arrange open windows like a pro with Snap Layouts and Snap Groups. Bring your multitasking to the next level with multiple desktops for work, play, and everything in between.

## Seamless Integration

Chat, call, and collaborate right from your taskbar. Staying connected has never been easier. With Widgets, get a personalized feed including news, weather, and more, all in one place.

## Speed and Performance

Get up and running faster with quicker startup speeds and seamlessly switch between tasks without distracting app-switching load times.

## Top-Notch Security

Keep vulnerabilities at bay with features like TPM 2.0 and Secure Boot. Sign in with a smile, fingerprint, or PIN. Pick a simple security method that works for you!

## Compliance

Many industry regulations require organizations to use supported operating systems. Continuing with Windows 10 after EOL may result in non-compliance.

## READY TO GET STARTED?

Let MNJ's engineers guide you through your deployment options and create a strategy built specifically for your organization's unique needs.

## About MNJ

MNJ is a leading Digital Transformation and IT Solutions Provider. We'll keep you ahead of the curve with our proven practice areas, focus on customer success, and extensive partner ecosystem.

### Experience & Expertise

- 50+ Alliance Software Engineers
- 200+ Alliance Data Centers
- 21 years average experience for MNJ engineers

### Consistent Execution

- 20+ years in business
- 12 years average customer tenure
- 10,000+ satisfied customers

### Company Culture

We are a woman-owned, family-centered business and give our team and customers the same respect. We're friendly, passionate, and committed to excellence.
