

Microsoft 365 License Assessment

Transforming Businesses Through Technology

Leveraging your Microsoft 365 licensing investment is always important. But in this “do more with less” business environment, optimizing license costs has become critical.

Whether your organization is buying Microsoft 365 through MNJ, Microsoft direct, or another partner, MNJ can ensure right-sized and optimized licensing spend for maximum value.

MICROSOFT 365 LICENSE ASSESSMENT

License optimization is more than just buying the right number of licenses. Are you provisioning the minimum required licensing suite for each user? Are users utilizing impactful functionality for their daily work?

Our service recommends:

- Appropriate license types per user persona
- Upgrades/downgrades
- The best license term
- Functionality requiring deeper adoption
- Annual budgeting estimates
- Remediation strategies

One of the critical aspects of optimizing licensing costs is knowing application usage. Our specialists will compare user activity data with your licensing information to identify mismatches allowing you to reassign/downgrade licenses.

We also identify areas of low adoption, recommend activities to grow usage, project ideal license counts, and help provide future budget estimates.

MNJ's Cloud Capabilities At-A-Glance

✓ M365/O365 and Desktop Modernization

- Intune/Autopilot Deployment
- DaaS Plan and Deploy
- Teams Plan and Deploy
- M365 License Management

✓ Cloud Native Development and DevOps

- Architecture Strategy & Roadmap
- Evaluation & Selection of Right PaaS Platforms
- PaaS Migration (Re-Factor, Re-Host, Re-Architect)
- Custom Application Development
- DevOps Transformation Model

✓ Data, Machine Language, and Artificial Intelligence

- Migration of On-Premise Data to Cloud
- Automation Using Cloud Stack Technologies for Faster Time to Insight
- Cloud-Based Data Warehouse Using Snowflake
- Business Data Lakes on Cloud

✓ Development Services

- Azure Development
- Cloud-Native Web Apps & SaaS Portals
- Agile Software Development
- Universal App Development
- Distributed Applications

✓ 24/7 Managed Cloud Services

- Monitoring & Alerting
- Incident Management
- Access Management
- Backup Management
- DR Drills
- Enhanced Security
- Cost Optimization

✓ Cloud Consulting

- Cloud Strategy & Roadmap
- Cloud Platform Build & Migration
- Cloud Operations
- Cloud Enablement Services

ACHIEVE YOUR BUSINESS GOALS WITH MNJ

In a hyper-competitive market, MNJ delivers value by helping you achieve your business objectives.

About MNJ
